

Notice of Study Commencement

Township of North Dundas North Dundas Drinking Water Supply System Capacity Expansion Municipal Class Environmental Assessment

The Township of North Dundas (Township) has initiated a Class Environmental Assessment (Class EA) to determine the most suitable expansion and/or upgrades to the North Dundas Drinking Water Supply System over the next 20 years.

How Will This Affect Me?

The study will assess current and future requirements of the North Dundas Drinking Water Supply System to address the reliability and redundancy of the communal water system and the anticipated demand increase due to planned residential expansions and growing industrial needs in Winchester and Chesterville.

Public and agency consultation is a key element of the process. Based on your input, alternative strategies will be evaluated to identify optimal community, environmental and economic opportunities.

How Do I Get More Information?

Two (2) Public Information Centre(s) (PIC) will be conducted and notice of these sessions will be provided at least two (2) weeks in advance. In the meantime, the study team is reviewing background data and determining alternative solutions. You are also invited to contact a member of the study team at anytime with questions or to provide input into the study.

Updates will be provided throughout the study on the Township website, and if you have any questions regarding the study, please visit the website at www.northdundas.com or contact one of the people listed below.
